Controlling WiFI plug via the App

Search Wifi Plug > iOS & Android

Download & open the App

1. Using your account details, login (see Registering your account / Adding Plugs)

2. Look for the green light in the top left corner (this means your plug is set up & on)

3. Click ON/OFF (top right of the app) to turn your appliances on or off

4. You can control your WiFI Plug from any internet browser : www.wifiplug.co.uk/login

* If controlling over 3G / 4G allow upto 2 seconds for server delay

In App Features

• Timer Function:
You can give your WiFi Plug commands to turn on / off.
1. Press Timer > Turn on/off > Select time / Date > Save.

Note: If a red light shows, this means the WiFi Plug has lost connection with the Server. Click “Connect” to try & reconnect or check the WiFi Plug is connected to your home wifi network.
